

Aavishkar Manthan — Premium Event Website Design Prompt

You are a **senior UI/UX designer and website designer with 30+ years of experience**. Design and build a **professional, premium, modern, highly responsive event website** for:

AAVISHKAR MANTHAN

This is an event organized by the **IUCEE-EWB MCE Chapter**.

The website should feel like a **high-quality national-level student innovation event**, not like a generic college website.

1. PRIMARY WEBSITE OBJECTIVE

The website should:

- Introduce the IUCEE-EWB MCE Chapter
- Introduce Aavishkar Manthan
- Explain the major events
- Showcase the event experience
- Display the ₹20,000 prize pool
- Showcase sponsors
- Display the complete 2-day schedule
- Provide easy registration
- Provide detailed pages for Ideathon and Elocution
- Provide event rules through the provided Rulebook PDF
- Provide contact and social media information

The website must be **simple, premium, engaging and easy to navigate**.

Do NOT add unnecessary sections or filler content.

2. REFERENCE WEBSITE — IMPORTANT

Use this website as the **primary source of truth** for IUCEE-EWB MCE information, event information, images, social media information and contact information:

  IUCEE-EWB MCE Website  <https://sites.google.com/view/iucee-ewb-mce/home> 

Go through the entire website carefully.

Use the relevant information from the website for:

- IUCEE-EWB MCE Chapter
- Aavishkar Manthan
- Ideathon
- Elocution
- Walkathon
- Bonfire
- Contact details
- Instagram/social media
- Gmail/email
- Event images
- Event descriptions
- Other relevant official information

Do not invent facts about the organization or events if the information is available on the reference website.

If information is not available, keep the content concise rather than making up information.

3. DESIGN DIRECTION

Create a **premium, modern event identity**.

Visual style

- Modern
- Minimal
- Premium
- Professional
- Youth-oriented
- Innovation-focused
- Clean typography
- Strong visual hierarchy
- Smooth animations
- Subtle micro-interactions
- Excellent spacing
- High-quality imagery

Avoid:

- Excessive gradients
- Too many colors
- Overly complicated animations
- Excessive glassmorphism
- Cluttered layouts
- Unnecessary cards everywhere
- Generic template-looking sections
- Excessive text

The website should look like a professionally designed **innovation summit / college flagship event**.

4. COLOR SYSTEM

Do not force a specific color palette.

Use your professional design judgment to **choose the color palette that best suits Aavishkar Manthan and the provided IUCEE/EWB logos**.

The selected colors should:

- Look premium
- Feel professional
- Match the event identity
- Complement the provided logos
- Have excellent contrast
- Work consistently across the entire website
- Look sophisticated on both desktop and mobile

You may choose the primary, secondary and accent colors based on what visually suits the event best.

Do not use too many colors.

Use strong contrast and make sure the website remains accessible.

5. LOGO USAGE

I have provided both **dark-theme and light-theme logos**.

Choose the correct logo automatically depending on the background.

For example:

- Light logo → dark backgrounds
- Dark logo → light backgrounds

Do not place a dark logo on a dark background or a light logo on a light background.

Maintain proper logo proportions and clear space.

6. GLOBAL NAVIGATION

Create a clean sticky navigation bar.

Navigation:

AAVISHKAR MANTHAN

- Home
- About
- Events
- Schedule
- Register

Add a prominent **Register Now** button in the navigation.

Do NOT add Sponsors/Sponser as a navigation item.

On mobile, convert the navigation into a clean hamburger menu.

The navigation should remain easy to use throughout the website.

7. PAGE 1 — HERO / HOME

The first screen should immediately communicate:

AAVISHKAR MANTHAN

IUCEE-EWB MCE Chapter

Create a powerful hero section using high-quality imagery from the official IUCEE website where appropriate.

The hero should introduce the IUCEE-EWB MCE Chapter and establish the event identity.

Include:

- Event name
- Short event tagline/description
- IUCEE-EWB MCE branding
- Event-related visual
- **Register Now** CTA
- Secondary CTA such as **Explore Events**

The hero should have a strong visual impact without becoming cluttered.

Use subtle entrance animations.

8. PAGE 2 — ABOUT AAVISHKAR MANTHAN

Create a dedicated section/page explaining:

About Aavishkar Manthan

Use the information from the official IUCEE-EWB MCE website.

Explain:

- What Aavishkar Manthan is
- Why the event is conducted
- Its purpose
- What students can participate in
- What the event aims to encourage
- The overall event experience

Use a combination of:

- Text
- Event images
- Statistics/highlights if officially available
- Visual separators

Do not overload the section with text.

9. PAGE 3 — EVENTS

Create a dedicated Events overview page.

The four major activities are:

01 — IDEATHON

02 — ELOCUTION

03 — WALKATHON

04 — BONFIRE

Use the **logos I have provided** for these events.

Obtain the official event descriptions and relevant imagery from the IUCEE website.

Each event should have:

- Event logo
- Short description

- Relevant image
- Key information
- **View More** button

For:

Ideathon

Add:

- View More
- Rulebook

Elocution

Add:

- View More
- Rulebook

Walkathon

Add:

- View More

Do NOT add a Rulebook button.

Bonfire

Add:

- View More

Do NOT add a Rulebook button.

10. IDEATHON DETAIL PAGE

When the user clicks:

View More → Ideathon

Open a separate dedicated Ideathon page.

Use the official IUCEE website as the primary content source.

Include:

- Ideathon introduction

- Objective
- How the event works
- Who can participate
- Important information
- Relevant images from the official website
- Event highlights
- Rules/instructions if officially available
- Registration CTA
- Rulebook CTA

The **Rulebook** button should open the provided Ideathon Rulebook PDF.

Make this page visually engaging and easy to scan.

11. ELOCUTION DETAIL PAGE

When the user clicks:

View More → Elocution

Open a separate dedicated Elocution page.

Use the official IUCEE website as the primary source.

Include:

- Elocution introduction
- Objective
- Format
- Participation information
- Important details
- Relevant official images
- Event highlights
- Rules/instructions if officially available
- Registration CTA
- Rulebook CTA

The Rulebook button should open the provided Elocution Rulebook PDF.

12. WALKATHON DETAIL PAGE

Create a dedicated Walkathon page.

Include:

- Walkathon introduction
- Purpose

- Awareness/social impact objective
- Schedule information
- Relevant official images
- Participation information
- Registration CTA

Do NOT show a Rulebook button.

13. BONFIRE DETAIL PAGE

Create a dedicated Bonfire page.

The Bonfire should feel like the **closing cultural/social experience of Aavishkar Manthan.**

Include:

- Introduction
- Purpose
- Cultural experience
- Relevant imagery
- Day-2 timing
- Registration/event participation CTA

Do NOT show a Rulebook button.

14. PAGE 4 — PRIZE POOL

Create a visually impactful prize section.

The total prize pool is:

₹20,000

IMPORTANT:

Do NOT divide the prize money into:

- 1st Prize
- 2nd Prize
- 3rd Prize

Only communicate:

₹20,000 TOTAL PRIZE POOL

Make this section visually premium and exciting.

Use large typography and subtle animation.

15. PAGE 5 — SPONSORS

Create a dedicated Sponsors section/page.

Currently include:

1. Himalaya
2. Royal Enfield
3. Parel

Add **3 additional sponsor placeholders** so the total becomes 6 sponsors.

The sponsor section should be structured as:

Our Sponsors

Use clean sponsor cards/logos.

IMPORTANT:

If official sponsor logos/information are not available, use clearly marked placeholders rather than inventing sponsorship relationships.

Do not falsely claim that an organization is an official sponsor without provided/verified information.

16. PAGE 6 — EVENT TIMELINE

Create a highly visual **2-day timeline**.

Do not present this as a basic table.

Use a professional vertical/horizontal timeline with:

- Time
 - Activity
 - Day indicator
 - Visual connection between activities
-

DAY 1

09:00

Registration

10:00

Inauguration

11:00

Ideathon Begins & Elocution Begins

01:00

Lunch

02:00

Continue of Ideation & Elocution

04:00

Mentoring / Sessions

06:00

Day 01 Wrap

DAY 2

06:00

Walkathon Assembly

08:30

Awareness Activities

10:00

Ideathon / Elocution

01:00

Lunch

02:00

Final Rounds

04:30

Closing Activities

06:30

Cultural Night with BONFIRE

Make Day 1 and Day 2 visually distinct while maintaining the same design system.

17. PAGE 7 — REGISTRATION

Create a dedicated registration page.

Main heading:

Ready to Be Part of Aavishkar Manthan?

Add a short motivating description.

Then provide a large:

REGISTER NOW

button.

The button must open this official registration form:

 [Aavishkar Manthan Registration Form](https://docs.google.com/forms/d/e/1FAIpQLScv2ze95nAY69me4JEqN86W28nG979HnHKWUGGAjjMGs6Ykkg/viewform?usp=publish-editor)  <https://docs.google.com/forms/d/e/1FAIpQLScv2ze95nAY69me4JEqN86W28nG979HnHKWUGGAjjMGs6Ykkg/viewform?usp=publish-editor> 

The registration CTA should also appear throughout the website where appropriate.

18. FOOTER

Create a professional footer.

Include:

IUCEE-EWB MCE Chapter

Contact numbers:

9740241414

8183037393

Also retrieve the official:

- Gmail/email
- Instagram
- Other relevant social media
- Website information

from the IUCEE-EWB MCE website.

Add social media icons with working links.

Also include:

- Aavishkar Manthan
- Quick Links
- Events
- Schedule
- Sponsors
- Register

Include a small copyright line.

19. RESPONSIVE DESIGN

The website **MUST** be fully responsive.

Optimize for:

Desktop

1920px 1440px 1280px

Tablet

1024px 768px

Mobile

430px 390px 375px

On mobile:

- Navigation becomes hamburger menu
 - Timeline becomes vertical
 - Event cards stack cleanly
 - Buttons remain easily tappable
 - Typography scales appropriately
 - Images never overflow
 - No horizontal scrolling
 - Maintain proper spacing
-

20. UX REQUIREMENTS

The website should feel effortless to use.

Prioritize:

- Clear navigation
- Strong CTA placement
- Fast scanning
- Excellent readability
- Consistent spacing
- Accessible contrast
- Clear buttons
- Meaningful animations
- Fast-loading images
- Mobile-first usability

Do not make users search for the registration button.

The **Register Now** CTA should be clearly visible throughout the experience.

21. ANIMATION STYLE

Use animations carefully.

Preferred:

- Fade-up animations
- Smooth section reveals
- Subtle hover effects
- Image zoom on hover
- Smooth page transitions
- Timeline reveal animation
- Button micro-interactions
- Subtle navbar transition

Avoid:

- Excessive bouncing
- Constant movement
- Flashy effects
- Distracting particles
- Overuse of parallax
- Long loading animations

The animation should feel **premium, not flashy**.

22. IMAGE USAGE

Use relevant images from the official IUCEE-EWB MCE website wherever available.

Do not use random stock images when official event images are available.

Maintain:

- Correct aspect ratios
- Consistent cropping
- High image quality
- Proper image hierarchy

Use large hero images strategically.

23. CONTENT ACCURACY

This is extremely important.

Use the official IUCEE-EWB MCE website as the primary source.

Do not:

- Invent event details
- Invent dates
- Invent winners
- Invent sponsor partnerships
- Invent statistics
- Invent contact information
- Invent event rules

If something is unavailable, use a placeholder or omit it rather than making up information.

24. OVERALL WEBSITE STRUCTURE

Final structure should approximately be:

Home ↓ **About Aavishkar Manthan** ↓ **Events** → Ideathon Detail → Elocution Detail → Walkathon Detail → Bonfire Detail ↓ **₹20,000 Prize Pool** ↓ **Sponsors** ↓ **2-Day Timeline** ↓ **Registration** ↓ **Footer**

The navigation and page hierarchy should make this structure intuitive.

25. FINAL DESIGN GOAL

The final result should feel like:

A premium national-level student innovation & awareness event website.

It should communicate:

Innovation + Sustainability + Competition + Social Impact + Youth + Celebration

The website must be:

Premium
Minimal
Professional
Modern
Responsive
Fast
User-friendly
Visually memorable

Do not make it look like a typical college event website.

Focus on **strong typography, excellent spacing, powerful imagery, clear hierarchy and a sophisticated color system.**

Most importantly:

KEEP IT SIMPLE. KEEP IT PREMIUM. KEEP IT USER-FRIENDLY.

Do not add unnecessary sections just to make the website longer.
